

Bay Area Sports TV Production Request Form

This form is to provide you with details of BASTV's video production services and collect information needed for the video production.

Bay Area Sports TV uses Ustream services to stream from. We're able to provide you links to stream to 3 websites in addition to bayareasports.tv. We're able to use up to 3 camera's to cover your event while recording and streaming. All event information, talent and athlete names will need to be provided at least 48 hours prior to day of the event. All information and logos are put into graphics to display during live streaming. We are able to make minor changes to graphics the day of event. The event will be recorded at the same time it's streaming for playback on your website and bayareasports.tv. After event is recorded, you are entitled to download your event from our dropbox and post your event where ever you like. You have the choice of having BASTV posting your event and sending you a link.

Ustream Information Details

This information can also be found at ustream.com. For big events which may have a large audience, BASTV starts with Ustream's silver plan of \$99 unless production coordinator's and/or sponsor's request for the Gold or Platinum plan. The silver plan comes with 100 viewer hours and an extra .50 cents per additional hour over that. Wth the Gold plan it's .25 cent per additional hour. You will receive a report of how many viewers watched your event and viewer hours charged.

The most we've had for a college football game is 768 views with just under 100 view hours for one game. Estimation of viewer hours would be the estimation of viewers multiplied by the hours of the event.

Multi-Camera Coverage

BASTV uses 2 JVC professional grade cameras and one prosumer Sony camera as we have done in our last college baseball production with Contra Costa college. BASTV will have 2 to 3 experienced camera men to cover your nation wide event. Which we have to have preproduction meetings to assure your event is well covered.

Commentators

You are welcome to have a commentator or two commentators which we will provide them with headsets with mics. If not then myself Tim Banks would provide a general voice coverage of names and/or teams and next event or competors. In general I do an introductory of information about the event at the beginning and end.

Please fill out information below to start the production. If any questions feel free to call Tim Banks at (707)373-4154, 9 am – 9 pm Monday through Friday pacific time.
